TRAINING RTO 70217

Chemical Awareness

The content and practical scenarios covered in this course conform with the requirements of the Australian Dangerous Goods Code.

WHO IS THIS COURSE FOR?

This course is suitable for those persons involved in the transportation, handling or storage of hazardous chemicals in the workplace.

COURSE CONTENT

- Regulations, Australian Standards and Australian Dangerous Goods Code
- Toxicology and exposure standards
- Safety data sheets
- Interpreting labels, placards & other instructions
- PPE requirements
- Handling and storage requirements
- Safe work practices
- Simulated workplace inspection

COST

\$265 per person excluding GST (if applicable).

DELIVERY METHODS

The course content will be delivered in a classroom environment using PowerPoint presentations, videos, group discussions and a number of demonstration and skill building activities.

Students will also undertake a practical task involving an inspection and review of current procedures for handling hazardous substances. A final quiz will be administered to test overall understanding of the concepts taught during the course.

Learners issued a statement of attendance.

COURSE DURATION

6 hours

STUDENT NUMBERS

Min 6; Max 12

PRE-ENTRY REQUIREMENTS

Students must be physically capable of participating in the practical activities and demonstrate a basic level of language, literacy and numeracy.

NOTES

All of our courses are tailored to site policies and procedures. Appropriate clothing is to be worn when attending training including long pants, long shirts and enclosed footwear. PPE specified by the workplace is also to be worn.

Full terms and conditions will be provided at the time of booking.
