

# Dust Hazards

This course provides participants with the knowledge and skills to identify dust hazards and implement appropriate prevention and mitigation strategies. It includes training in fire safety and methods of extinguishment.

# Dust Hazards

## WHO IS THIS COURSE FOR?

This course is suitable for those persons who work in environments where dust hazards are commonly found.

## COURSE CONTENT

- Relevant legislation, Codes of Practice & Australian Standards
- Nature of dust hazards
- Hazards, risks and control measures for confined spaces
- Respiratory protection
- Prevention and mitigation strategies
- Site emergency procedures
- Fire safety and methods of extinguishment
- Simulated practical scenarios (including controlled dust explosion)

## DELIVERY METHODS

The course content will be delivered in a classroom environment using PowerPoint presentations, videos, group discussions and a number of demonstration and skill building activities.

Students will also undertake a practical task involving an inspection and review of current procedures for managing dust hazards. A final quiz will be administered to test overall understanding of the concepts taught during the course.

## UNITS OF COMPETENCY

Nil

## COURSE DURATION

4 hours

## STUDENT NUMBERS

Min 6; Max 12

## PRE-ENTRY REQUIREMENTS

Students must be physically capable of participating in the practical activities and demonstrate a basic level of language, literacy and numeracy.
